

Petzl Custom offers customized helmets from the VERTEX® or STRATO® range. There is a choice of shell (with or without ventilation) and of color (standard or fluorescent). Stickers with a logo and/or names can be printed, and colored reflective bands may be added. A wide range of accessories (chinstraps, protective eye and face shields, helmet protectors, nape protectors, name-tag holders, beanies) are available and may be pre-mounted. They are packaged individually for a ready-to-go solution.

COLOR

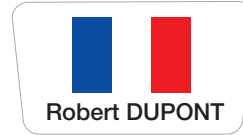

STICKERS

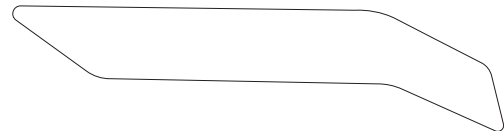

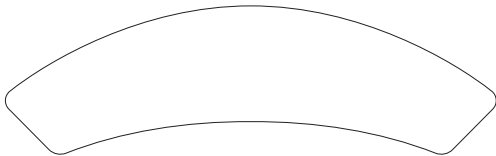

Front or rear: logo or individual name

Optional customized stickers in the front or rear. A logo and/or name can be printed on a reflective white or gray background.

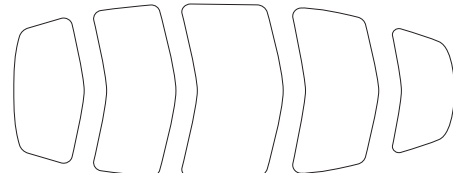

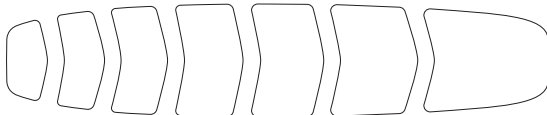

Side (x2): Logo, text, or color

Optional customized stickers (non-printable logo on a white or reflective gray background) and reflective side bands (non-printable) available in three reflective colors: blue, red, or gray.

Top

Optional top reflective bands (non-printable), available in three reflective colors: blue, red or gray.

ACCESSORIES

Chinstrap

We offer the option to choose the DUAL chinstrap strength (< 25 kg or > 50 kg).

By default, the helmet is delivered with the chinstrap strength set to greater than 50 kg. The configuration allows you to select the strength setting at the time of delivery. Consider the following risks when choosing a configuration:

- Risk of helmet coming off in a fall: strength greater than 50 kg
- Risk of strangulation if helmet is snagged: strength less than 25 kg

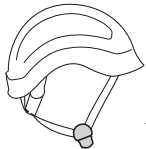

The chinstrap strength setting determines your helmet's certification:

- EN 12492 standard requires strength greater than 50 kg
- EN 397 standard requires strength less than 25 kg

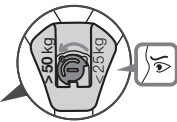

The option "without chinstrap" is not possible for the VERTEX CUSTOM helmet. Without a chinstrap, the helmet does not conform to the EN 12492 standard.

For more information, see the product technical tips at Petzl.com.

Place A Custom Order

Placing an order for the customizable VERTEX® CUSTOM or STRATO® CUSTOM with a logo can be done in three steps:

- 1. Communicate the configuration of the VERTEX CUSTOM® or STRATO® CUSTOM helmet to your Petzl sales representative.**
The order should include the chosen configuration options. This document can be used to verify the chosen options.
- 2. Provide a document in the correct format for the VERTEX® CUSTOM or STRATO® CUSTOM helmets with logo(s).**
The documents should be in vector format: .ai, .eps, or .svg
Text should also be in vector format.
Communicate Pantone references for logo color. CMNJ or RVB references are also accepted.
Identify each graphic file with the chosen location (FRONT / REAR / SIDES for example: FRONT-PetzlLogo.ai).
Provide a list for customizations including names (document in .xls format, containing the names in a numbered list from 1 to 20, for example).
- 3. After sending your order to your Petzl contact, you will receive an offer and a digital proof to validate.**
Lastly, confirm your order and sign your digital proof for VERTEX® CUSTOM or STRATO® CUSTOM helmets with logo(s).
